

★LICENSED ASSISTED LIVING FACILITIES★  
LANCASTER COUNTY

This type of facility provides accommodation, meals, and an array of services which may include personal care, ambulation, exercise, eating, self administration of medication, routine nursing interventions, and other supportive services. These facilities must be licensed if services are provided to four or more non-related individuals who need or want these services. Assisted living promotes resident self-direction and participation in decisions which emphasize independence, individuality, privacy, dignity, and residential surroundings.

The Nebraska Department of Health licenses residential care facilities, and will investigate written complaints.
